

## OFFICIAL INVITATION

Dear Sirs/Madam

we are proud to inform you that **the XIV Conference of the Italian Proteomic Association (ItPA) will be an International conference**, it will be held in **cooperation** with the **Hellenic Proteomics Society in Catanzaro from Tuesday, June 25<sup>th</sup>, to Thursday, June 27<sup>th</sup> 2019**, 'University 'Magna Græcia ' , Italy. The venue will be the main Auditorium of the prestigious context in the Hospital Campus ' Salvatore Venuta'. **This Campus hosts the departments of medicine, biotechnology, pharmacy and veterinary sciences, that are all engaged in proteomics applications and instrumentations.** This occasion will be a unique showcase to provide information on the latest scientific and technological developments and solutions. Moreover, Calabria region and in particular University Magna Græcia is considered a priority area for European Community and have access to dedicated calls and funding schemes for implementation of the applied research. You will find information about the conference on our website ([www.itpa.it](http://www.itpa.it)) as well as the invited speakers program. In particular, the title of the Congress is ' **Proteomics and Metabonomics on the verge of One Health Approach**' in order to explore and involve challenges of proteomics and metabonomics investigation in the field of Human and non-Human Proteomics, Systems Biology, Food and Nutrition Proteomics , Mitochondria including specific initiatives inside the Human Proteome Project. We would like to emphasize that ItPA invests the majority of these financial contributions to support mobility for Young Researchers in Italian and foreign laboratories, so your attendance will be crucial for this purpose.

**FONDAZIONE ITPA ONLUS ANNOUNCES THAT 20 TRAVEL GRANTS, up to 250 euros each, are available for Early Career Researchers, for the conference**

Applicants must meet the following requirements:
